Carroll College
Network Connection Guide

- Connect to network **Carroll College**
- In Chrome (or other) go to **join.carroll.edu**, or use the QR code
- Agree to the Acceptable Use Policy and click Continue

HaloLite (Chrome, TV, and other devices)

- Click **Register Chrome / Other**
- Login with Okta credentials
- Type in the Device Name
- Input the **MAC Address** of the device you're trying to connect. Having trouble finding that? Try a quick Google search to see how to find the MAC Address for that device.
- Click **Create Device** to generate a password
- Select **HaloLite** on the device you're connecting and enter the password

Android & PC:

- Click Register Current Device and sign in with Okta credentials
- Download and launch the configuration application
- It will prompt for a few permissions and you must allow all permissions in order to connect properly
- Wait until it shows a successful connection

iPhone & Mac

Carroll College
Network Connection Guide

- Connect to network **Carroll College**
- Using **Safari**, go to **join.carroll.edu**, or use the QR code (iPhone)
- Agree to the Acceptable Use Policy and click Continue
- Click Register Current Device and sign in with your Okta credentials

On iPhone:

- Tap Download Certificate, then tap Allow, then tap Close
- Go back to Settings and, on the main page, tap Profile Downloaded, choose **HaloNet Onboard** and install; you will be prompted for your passcode
- Go back to Safari and tap Download Profile, then go back to Settings to install the new profile **Carroll HaloNet**
- Once installed, connect to network **HaloNet**

On Mac:

- Click Download Certificate. This will launch System Preferences where you will install the certificate
- Once installed, go back to Safari and click Download Profile, then install this profile
- Once installed, connect to network **HaloNet**
